## SKILLS

Coding & Debugging

Leadership & Teamwork

Autonomous

Critical thinking & Analytical

Interpersonal & Commercial Skills

Communication & Teaching Skills

## LANGUAGES

**Catalan** (native)

**Spanish** (native)

**English** (First - B2)

## SUMMARY

**Blockchain Developer** passionate about **Web3** willing to continue learning and consolidating objectives in this sector. Hardworking, perfectionist, committed and dedicated. With skills in programming languages (**Solidity**, #C, C++, Python, **JavaScript**, **Rust**...), blockchain tools (**hardhat**, **foundry**, **truffle**, **remix**, **react**...), creation of **NFTs**, **Marketplaces** and **DAOs**.

## PROFESSIONAL EXPERIENCE

June 2024 – September 2024 **CTO – MiMIAT Health**

Creating an innovative platform that empowers patients and enhances communication with healthcare providers, creating a seamless and engaging health management experience.

January 2024 – June 2024 **Software Engineer – Zondax**

I am focused on Ledger Apps Development, providing an engineering service in the blockchain area. I am using principally Javascript and Typescript for the development.

November 2023 – January 2024 **Blockchain Developer – Colección NFT**

I have developed an NFT bidding system for an art gallery. I have made the **marketplace**, the **auction** and the **NFT Smart Contracts**. I've used **Solidity**, **hardhat**, **Javascript**, **React**, etc.

April 2022 – May 2023 **Electronic engineer – ModpoW SL**

Low-level programming in **C** of various microcontrollers such as **ESP32** or **STM32**.

February 2022 – July 2022 **Web Developer – Institut Català de la Salut**

Website development. **Fullstack** development, both programming the interface and presentation logic and designing and creating the entire software architecture.

December 2021 – March 2022 **Internship – Server Reguladores**

Design, repair, development and production of electronic circuits. Use of **Visual Basic .NET** to verify each product. Microcontroller programming in **C**.

May 2021 – September 2021 **Internship – FICOSA**

Analyze the different electronic systems in relation to the automotive industry. Propose and develop solutions to different problems that may occur.

2018 – 2019 **Viaja WÄY comercial – B the travel Brand**

Sales department, commercial. Study and learn about the company's different products. Cold contact with clients, product exhibition, customer follow-up and closing of the opportunity.

## EDUCATION

From May 2024 **Solidity Bootcamp Course – Metana**

Learning all about **Ethereum Blockchain**, **Defi**, and **Smart Contracts**. Solving **Ethernaut**, **Capture the Ether** and **Damn vulnerable Defi** exercises, among others.

April 2023 – December 2023 **Blockcoder Bootcamp Course – Themar Academy**

Knowledge related to the foundations of **Blockchain**, specialization in **Solidity**, project creation and contract **security and optimization** has been acquired. Final project based on the creation of an **AAVE clone**, having to understand the entire **DeFi** architecture.

April 2023 – December 2023 **Blockchain Development Course – Tokio School**

2022 – 2023 **Master in Industry 4.0 – UNIR**

2018 – 2022 **Electronic Telecommunications Engineering & Robotics – La Salle BCN, URL**
